NEW YORK POSTMASTER’S PROVISIONAL 1845-1847

INTRODUCTION

The New York Postmaster’s Provisional was the first proper postage stamp issued in North America, and although it was issued only to be used in New York City, it was actually also used on mail from a number of places in the United States to New York City, as well as from New York City to other countries, including a number of destinations in Europe. So, unlike all the other US Postmasters’ Provisionals, which were mainly used locally, the New York Postmaster’s Provisional was a true national and international stamp!

PURPOSE & SCOPE

This exhibit is a very comprehensive study of the New York Postmaster’s Provisional, starting by showing mail from New York City before the introduction of the Provisional, examples of alternative services available during the period, essays and proofs of Washington’s head (including use of the same die in other printed products) and the stamp design, examples of the issued stamp unused, used and on cover, including different papers and control initials, and finally the postal use of the stamp to and from different US states, as well as to and from a number of foreign destinations. More than 250 examples of the stamp are shown, including all the 40 positions of the plate in a plate reconstruction.

STRUCTURE & CONTENT

The exhibit is arranged in sections starting with mail from New York City before the introduction of the Provisional, essays and proofs, the issued stamp, and finally the postal use inland and abroad. The content of each section can be seen in the Plan below, and descriptions of the more important items are found under the Rarity & Highlights heading to the right.

RARITY & HIGHLIGHTS

The rarity statements in the exhibit are based on personal and other specialists’ records, accumulated over a long time period, containing details of virtually every major collection ever assembled from this area. Below is a list of the more important items shown in the exhibit.

1. Prologue / Essays & Proofs (Frame 1-2)

Mail sent from New York City on 1st July 1845, the day the Post Office Reform Act was introduced, US City Despatch Post and Boyd’s City Express used both within New York City and beyond the city borders, showing the alternative services available during the Provisional period. Engravings of Washington’s portrait as used for the Provisional, showing how it was also used on contemporary bank notes. Essays, Die Proofs, Plate Proofs and Colour Proofs of both Washington’s head and the complete stamp design, including three complete platings of the sheets of nine. Sporati’s forgery of the Provisional is also shown, both in the form of a die proof and of stamps “unused” and “used”.

2. The issued stamp (Frame 3)

During the two years of use of the Provisional, a large number of printings were carried out, so therefore the stamp exists on several different types of papers, and examples of these are shown: Bluish paper (Scott 9X1, unused, used, pairs, on cover), Blue paper (9X2, unused without control initials (three known), used, on cover (rare)), Grey paper (9X3, used, single and pair on covers). Reconstructed sheet of 40, Block of 4 (unique). The stamps were normally signed by the Postmaster or his assistants, so a number of different control initials or initial varieties exist, and these are shown unused, used, and on cover: ACM all connected (9X1), ACM with AC connected (9X1a), A.C.M. and A C M unconnected (9X1b), RMS (9X1d), used and on cover, both rare, as well as the unique cover with two copies, unsigned (9X1e). Also two of only five known used combination pairs of 9X1 and 9X1a as well as one of two known on cover and two of only three known unused combination pairs. Varieties including Stitch Watermark and a number of Pre-printing Paper Folds are also shown.

3. Postal use (Frame 4-5)

Examples of the 5 cents rate (up to 300 miles) to nine different states, the 10 cents rate (over 300 miles) to nine different states, including a very late use (January 1850), one of three known 15 cents triple rate (up to 300 miles) covers, one of five known 20 cents double rate (over 300 miles) covers, one used on cover from Boston to New York (rare), one used on cover from Ohio to New York, re-directed to Connecticut with a Provisional added, and two used on registered covers to Philadelphia (rare). The foreign uses include one on cover from Mexico to France, one from Florida to Scotland, and examples to Canada, England, France, Belgium, and Trieste (Austria) (one sent under cover from London, as well as one sent through the mails all the way).
PROLOGUE - WHAT HAPPENED BEFORE JULY 1845

Before July 1845, the internal US postal rates were charged according to five different zones based on the distance: up to 30 miles 6 cents; 30-80 miles 10 cents; 80-150 miles 12½ cents; 150-400 miles 18½ cents; over 400 miles 25 cents. These charges were for single page letters, double and multiple letters were charged pro rata.

1845 (13 June) from New York City to Hartford, Connecticut (117 miles) charged “12½” cents

Rate: Marked PAID and “12½” cents (rate for 80-150 miles)

12½ cents rate for 80-150 miles

1844 (14 October) from New York City to Washington City (230 miles) charged “18½” cents

Rate: Marked PAID and “18½” cents (rate for 150-400 miles)

18½ cents rate for 150-400 miles
THE 1845 POST OFFICE REFORM ACT - INLAND MAIL

The 1845 Post Office Reform Act, effective from the 1 July 1845, simplified and reduced the internal US postal rates which were charged according to two different distance zones only: 5 cents per half ounce for distances up to 300 miles, and 10 cents per half ounce for any distance over 300 miles.

1845 (26 November) from New York City to Mohawk, New York (228 miles) charged "5" cents

Rate: Marked "5 cts" (rate up to 300 miles)

5 cents rate up to 300 miles

1846 (10 September) from New York City to Bangor, Maine (444 miles) charged "10" cents

Rate: Marked "10 cts" (rate over 300 miles)

10 cents rate over 300 miles
THE 1845 POST OFFICE REFORM ACT - FIRST DAY COVERS

The 1845 Post Office Reform Act, effective from the 1 July 1845, simplified and reduced the internal US postal rates which were charged according to two different distance zones only: 5 cents per half ounce for distances up to 300 miles, and 10 cents per half ounce for any distance over 300 miles.

1845 (1 July) from New York City to Webster, Massachusetts (164 miles) charged “5” cents

5 cents rate up to 300 miles

1845 (1 July) from New York City to Watertown, New York (317 miles) charged “5” cents, altered to “10” in m/s

“Firstly, let us rejoice together in the opening sea of Cheap Postage”

10 cents rate over 300 miles
NEW YORK POSTMASTER'S PROVISIONAL

THE 1845 POST OFFICE REFORM ACT - FOREIGN MAIL

The internal rates charged on foreign mail were also affected by the 1845 Post Office Reform Act, and the rates charged to the port of departure were the same: 5 cents per half ounce up to 300 miles, and 10 cents per half ounce over 300 miles.

1846 (12 February) from New York City to London, charged “5” cents from New York to Boston (216 miles)

Rate: “5” cents (rate up to 300 miles) and “1/” (British Packet letter rate)

To England: Charged 5 cents inland rate up to 300 miles + foreign charges

1845 (15 December) from New York City to France, paid “5” cents from New York to Boston (216 miles)

Rate: “5” cents (rate up to 300 miles) and “19” decimes (=190 centimes) (French ship and inland charge)

To France: Paid 5 cents inland rate up to 300 miles + foreign charges
NEW YORK POSTMASTER'S PROVISIONAL

UNITED STATES CITY DESPATCH POST

By an order of the 1 August 1842, the Postmaster General established a carrier service in New York City known as the "United States City Despatch Post". The service delivered mail within New York City and the rate for this was 3 cents for normal letters. Stamps were used to indicate that the postage had been paid. The service was discontinued in November 1846.

1845 (12 July) within New York City with 3 cents US City Despatch Post (Sc 6LB5) tied by red "U.S." in octagon

Rate: 3 cents (local city rate)

3 cents US City Despatch Post within New York City

1845 (12 June) from New York City to Philadelphia (98 miles) with 3 cents US City Despatch Post (Sc 6LB5) tied by red NEW YORK datelstamp, and charged "12½" cents

Rate: 3 cents (local city rate from a letter box to the main Post Office) + marked "12½" cents (rate for 80-150 miles)

3 cents US City Despatch Post from New York City to Philadelphia, charged 12½ cents
Boyd’s City Express was established as a local post on 17 June 1844 by John T Boyd. The service delivered mail within New York City and the rate for this was 2 cents for normal letters. Stamps were used to indicate that the postage had been paid. The service was in operation in one way or another all the way up to 1883.

1846 (19 July) within New York City with 2 cents Boyd’s City Express (Sc 20L4) postmarked with black grid

Rate: 2 cents (local city rate)

2 cents Boyd’s City Express within New York City

1848? (18 July) from New York City to Woodbury, Connecticut (91 miles) with 2 cents Boyd’s City Express (Sc 20L7) postmarked with black grid and tied by red NEW YORK datestamp, charged “5 cts”

Rate: 2 cents (local city rate from Boyd’s to the main Post Office) + marked “5” cents (rate up to 300 miles)

2 cents Boyd’s City Express from New York City to Woodbury, charged 5 cents
In 1844, the New York Post Office moved to the former Dutch Reform Church building at Liberty and Nassau streets, and it stayed there for some 20 years. It was in this building that the New York Postmaster's Provisional was issued and sold, although they were also sold at the branch in the Merchants Exchange Building on Wall Street, the same building in which Rawdon, Wright and Hatch had their offices and plant, and where the stamps were produced.

1845 print from the Pictorial Times showing the "Exterior of Post Office, New York"

1846 print from the Pictorial Times showing the "Interior of the New York Post-Office"
The portrait of George Washington used for the New York Postmaster's Provisional, was based on an oil painting by Gilbert Stuart. The printers Rawdon, Wright & Hatch (RW&H) of New York City, had a stock die which was often used by the firm in the production of banknotes, and this was used for the Provisional.
The portrait of George Washington used for the New York Postmaster's Provisional, was based on an oil painting by Gilbert Stuart. The printers Rawdon, Wright & Hatch (RW&H) of New York City, had a stock die which was often used by the firm in the production of banknotes, and this was used for the Provisional.

Issued $50 Bank of Augusta note showing the use of the Master Design
From the Master Design Die, a secondary die of the head and neck was made. This essay shows a scar running from Washington’s lip to the bottom of the chin. The secondary die was then retouched to remove the scar on the chin. The large Die Proof on thin white glazed card, die sunk, only exists in grey black.

Prior to producing the final printing plate of 40, a preliminary plate of 9 was made. No proofs are known from the plate of 40, but the plate of 9 was proofed on bond in deep blue, dark green, brown, scarlet as well as in black on blue, grey and white papers. The positions of the plate of 9 can be platted by using the various small flaws found on each position.

SPERATI'S FORGERIES

Jean de Sperati (1884-1957) was among the most noted stamp forgers of the world. Even professional stamp experts attested to the genuineness of his stamps. A printer and engraver by profession, he was able to mimic the details of design and the paper with great accuracy. His forgeries of the New York Postmaster's Provisional were made as copies of position 29.

Die Proof signed "Jean de Sperati" and handstamped "REPRODUCTION INTERDITE"

BPA type A was probably mass produced by Sperati after World War II. Type A is less clean and the impression is less fine, and the whole stamp makes a more flat appearance than type B.

Sperati Forgery type A "used", signed Sperati  
Sperati Forgery type A on blue paper "used", signed Sperati

BPA type B was produced in limited numbers by Sperati before World War II. Type B is a somewhat cleaner and relatively finer impression and the stamp makes a deeper appearance than type A.

Sperati Forgery type B "unused"  
Sperati Forgery type B, without initials, on blue paper, "unused" with "SPERATI REPRODUCTION" handstamp on reverse

PAPERS - 5 CENTS BLACK ON BLUISH PAPER (9X1)

The New York Postmaster's Provisional was first used on 15 July 1845 and remained in use until the 30 June 1847. During this period there were 18 deliveries of stamps, and probably almost as many printings; in total 3,590 sheets (= 143,600 stamps) were printed. Almost all the printings were carried out on a bluish paper, which in most cases has faded to an off white colour.

PAPERS - 5 CENTS BLACK ON BLUE PAPER (9X2)

The last delivery of the New York Postmaster's Provisional was delivered on the 7 January 1847. For some reason, this delivery contained some sheets printed on different papers, a blue paper (much more blue than the regular stamps) and a grey paper (distinctly grey compared to the regular stamps). Stamps on these papers are quite rare and they were only in use for a few months.

Block of four - Unique!

Provenance: Stanley Piller

Illustrated in "The New York Postmaster's Provisional" page 53.
CONTROL INITIALS - "ACM" ALL CONNECTED (9X1)

Control initials were written on almost all of the stamps. The initials were applied in different shades of magenta ink before the stamps were sold, and served as a control or authentication device. "ACM" all connected were the initials used by Alonzo C. Monson, and probably also by several other clerks. Alonzo died in 1902, 80 years old.

"ACM" all connected (200%)  Unused, pos.39  Unused pair, pos.33-34

Used pen cancelled in blue  Alonzo C. Monson  Used with part of British "1/-" charge marking

"AC M" with "AC" connected (9X1a)
CONTROL INITIALS - "AC M" WITH "AC" CONNECTED (9X1a)

The initials "AC M" with "AC" connected were not used by Alonzo C. Monson, but by one of the clerks in the Post Office, W. C. R. Engrist, when he signed stamps. Apparently he also signed some of the "ACM" all connected initials.

1845 (12 November) from New York to Maumee City, Ohio, with 5 cents vertical pair pen cancelled in red

1846 (21 February) from New York to Chicago, Illinois, with two 5 cents (9X1 + 9X1a) pen cancelled in blue

Initials "ACM" (9X1) and "AC M" (9X1a)

CONTROL INITIALS - "A.C.M." UNCONNECTED (9X1b1)

The initials "A.C.M." and "A.C.M." unconnected were surprisingly not used by Alonzo C. Monson, but by his brother Marcena Monson Jr. It is not known why Marcena used his brother's initials rather than his own, especially since Marcena is known to have signed some stamps with his own initials as well. Marcena died in 1870, 47 years old.

NEW YORK POSTMasters PROVISIONAL

CONTROL INITIALS - NONE (9X1e)

A small number of stamps are found without any initials at all. Whether they were sold deliberately like that, or if it was an oversight caused by rush during a busy period, is not known, but they appear throughout the Provisional period. However, it is known that during the first period after the stamp was issued, none of them were initialled.

Unused

Used pen cancelled in black

1845 (25 July) from New York to New Haven, Connecticut, with 5 cents pen cancelled in black and tied by red NEW YORK datestamp. Early use - 10 days after the first day of use.

No Control Initials (9X1e)
VARIETIES - STITCH WATERMARK AND PRE-PRINTING PAPER FOLDS

Stitch Watermarks appear as a row of short parallel lines and are caused by the stitching together of the ends of the cloth aprons on which the pulp is assembled in the paper making process. They are quite rare. Pre-Printing Paper Folds are folds which are present in the paper before the printing is carried out. When these folds are unfolded after the printing has been completed, white unprinted lines appear across the stamps.

Initials “A.C.M.” (9X1b) pos.10

To Kentucky, postage 10 cents with 5 cents paid by stamp and 5 cents in cash
NEW YORK POSTMASTER’S PROVISIONAL

LATE USE

The New York Postmaster’s Provisional (and all other Postmaster’s Provisional stamps) were replaced by the first national postage stamps on 1 July 1847. However, the New York Postmaster’s Provisional was still valid in New York after that date, but very few covers are known and the three latest examples are from 1850 and 1851.

1850 Late use to New York State, postage 10 cents with 5 cents paid by stamp and 5 cents in cash

1850 (15 January) to Lockport, New York (376 miles), with 5 cents pen cancelled in blue and red NEW YORK 10cts

Initials “AC M” (9X1a) pos.31 (major double transfer)

1850 - Late use. Very rare!

Provenance: Stan Piller
THE 15 CENTS RATE (TRIPLE RATE UP TO 300 MILES)

With the rate for letters sent up to 300 miles being 5 cents per half ounce, the rate for a letter weighing between half and one ounce was 10 cents, and between one and one-and-a-half ounces was 15 cents. Only three letters are known with strips of three of the New York Postmaster’s Provisional, and strips of three off cover are equally rare.

1845 (16 October) Triple rate cover from New York to Philadelphia, with 5 cents strip of three, pen cancelled in blue, with red PAID marking and red NEW YORK OCT.16 datestamp, and manuscript “15” cents in blue

Strip of three on triple rate cover (up to 300 miles) - Rare, only three known!

Provenance: Alfred S Martin, Stanley Piller
THE 20 CENTS RATE (DOUBLE RATE OVER 300 MILES)

With the rate for letters sent over 300 miles being 10 cents per half ounce, the rate for a letter weighing between half and one ounce was 20 cents. Only five such letters are known with the New York Postmaster's Provisional, and all except one bear a strip of four, whereas the cover below bears two pairs which originally formed a block of four before being affixed to the cover.

1847 (27 January) Double rate cover from New York to Mobile, Alabama, with 5 cents (two pairs, which originally formed a block of four), cancelled with red grids, with red PAID and NEW YORK JAN. 27 cds, and manuscript "20" cents in blue.

Two pairs (which originally formed a block of four) on double rate cover (over 300 miles) - Unique!
Provenance: Caspary

Scan of the two pairs (pos. 6-7 + 11-12) on the cover above (150%). Originally they formed a block of four before being affixed to the cover.
The New York Postmaster, Robert H. Morris, informed his colleagues in other cities and states, that we would accept mail addressed to New York, bearing his Provisional as prepaid. All such use is very scarce and it is known from a number of different places of origin.

1846? (18 March) from Boston to New York, with 5 cents cancelled with red PAID and BOSTON 18 MAR “5” cents

9X1, pos.13. Addressee’s name reconstructed.

From Boston to New York - Very scarce.
Provenance: “Georgian”, Stanley Piller
USE ON MAIL TO NEW YORK

The New York Postmaster, Robert H. Morris, informed his colleagues in other cities and states, that we would accept mail addressed to New York, bearing his Provisional, as prepaid. All such use is very scarce and it is known from a number of different places of origin.

1846? (17 April) from Boston to New York, with 5 cents vertical pair cancelled with red Boston grid and BOSTON APL.17 Mass.

9X1, pos.31+36 (both major double transfer)

From Boston to New York - Very scarce.

Provenance: Stanley Piller
A small number of covers to New York, re-directed to another city or state, with a Provisional added in transit, are known.

1846 (3 June) from Cincinnati, Ohio, to New York, re-directed to Norwich, Connecticut, with a 5 cents added pen cancelled in blue. Postmarked CINCINNATI JUN. 3 and manuscript "10" cents (under the stamp), and NEW YORK 8 JUN and PAID

From Ohio to New York, re-directed to Connecticut with a 5 cents added - Rare!

Provenance: "Georgian"
REGISTERED (RECORDED) MAIL

Recorded mail (an early form of Registration) with the Provisional is known to Philadelphia only. A blue “R” was applied in Philadelphia upon arrival to indicate that the letter was Recorded. Very few examples are known.

1845 (3 December) Recorded from New York to Philadelphia, with 5 cents pen cancelled in brown and with red PAID and NEW YORK 3 DEC 5 cts, and blue “R” applied in Philadelphia to indicate that the letter was Recorded.

Recorded (Registered) letter to Philadelphia - Rare!

Provenance: “Georgian”, Stanley Piller

1847 (11 March) Recorded from New York to Philadelphia, with 5 cents cancelled with red grid, and with red PAID and NEW YORK MAR 11 5 cts, and blue “R” applied in Philadelphia to indicate that the letter was Recorded.

Recorded (Registered) letter to Philadelphia - Rare!
FORWARDING AGENTS MAIL - FROM MEXICO TO FRANCE

Mail from Latin American countries, forwarded via New York, with a New York Postmaster’s Provisional added, is known. Countries of origin include Cuba, Mexico and Puerto Rico. They are all very rare.

1845 (October) from Mexico to New York, forwarded by Forwarding Agent Juan de la Granja to Paris, France, with 5 cents Provisional (9X1) added cancelled with red PAID marking, and NEW YORK 22.OCT 5 cts datestamp.

Rate: 5 cents to Boston (rate up to 300 miles) and charged “15” décimes (=150 centimes) (French ship and inland charge)
Forwarding Agent: Manuscript “Encam.a por SSS Juan de la Granja, Nueva York Octr 22 de 1845”
(Forwarded by SSS Juan de la Granja, New York Oct.22 1845)

From Mexico to New York, forwarded to France with a 5 cents added - Unique!
FORWARDING AGENTS MAIL - FROM FLORIDA TO SCOTLAND

At least two covers from Apalachicola, Florida, to New York, forwarded to Scotland, with a New York Postmaster's Provisional added, are known. Both covers were handled by the same New York Forwarding Agent.

1846 (19 January) from Apalachicola, Florida, to New York, forwarded by Forwarding Agent Collomb & Iselin to Greenock, Scotland, with 5 cents Provisional (9X1a) added pen cancelled in blue, and with red PAID and NEW YORK 30 JAN 5 cts daterstam.

Rate: 5 cents to Boston (rate up to 300 miles) and charged "1/-" (British Packet letter rate)
Transit markings: New York 30 JAN 5 cts; America Liverpool FE.14.1846; Greenock FE.16.1846
Forwarding Agent: Cachet "Forwarded by Collomb & Iselin, New York"

From Florida to New York, forwarded to Scotland with a 5 cents added - Rare!
FOREIGN MAIL - TO CANADA

The New York Postmaster's Provisional is known on covers to Canada - seven covers are recorded and almost all of them show a Canadian rate of 4½ pence (up to 60 miles). Only one shows the Canadian 9 pence rate (over 100 miles) - the cover below.

1845 (15 August) from New York to London, Canada West (Ontario), with 5 cents pair (9X1b pos.37-38) pen cancelled in blue, and with red PAID and NEW YORK 15.AUG 10 cts datestamp, QUEENSTON U.C. AUG.17 exchange office marking, LONDON U.C. AUG.19.1845 arrival cds, charged "9" pence

Rate: 10 cents (rate over 300 miles) to Queenston (410 miles), charged "9" pence (Canadian rate over 100 miles) from Queenston to London, Ontario (126 miles)

To Canada - Rare, only seven known, this being the only one charged 9 Pence.
Provenance: Illustrated in "The N Y Postmaster's Provisional" page 118
THE NEW YORK POSTMASTER'S PROVISIONAL

FOREIGN MAIL - TO ENGLAND

The New York Postmaster's Provisional is the only U.S. Postmasters' Provisional used extensively on foreign mail. Great Britain is among the most common destinations found and some 30 covers have been recorded.

1846 (13 November) from New York to London, England, with 5 cents (9X1) pen cancelled in blue, and with red PAID and NEW YORK 13.NOV 5 cts datestamp

Rate: 5 cents to Boston (rate up to 300 miles) and charged “1/” (British Packet letter rate)
FOREIGN MAIL - TO FRANCE

France is also among the most common destinations found and some 30 covers have been recorded. Covers to France may have been charged either according to Article 12 (up to the end of 1845) or Article 13 (from 1846).

1845 (15 September) from New York to Lille, France, with 5 cents (9X1b, pos.21) pen cancelled in blue, with red PAID and NEW YORK 15.SEP 5 cts datestamp, and COLONIES &c ART.12 accountancy marking.

Rate: 5 cents to Boston (rate up to 300 miles) and charged "14" décimes (=140 centimes) (French ship and inland charge)

To France - COLONIES &c ART.12

Provenance: "Georgian"
FOREIGN MAIL - TO FRANCE

France is also among the most common destinations found and some 30 covers have been recorded. Covers to France may have been charged either according to Article 12 (up to the end of 1845) or Article 13 (from 1846).

1846 (28 February) from New York to Marseille, France, with 5 cents (9X1a) cancelled with red NEW YORK 5 PAID 28.FEB datemark, and COLONIES &c ART.13 accountancy marking.

Rate: 5 cents to Boston (rate up to 300 miles) and charged “27” décimes (=270 centimes) (French ship and inland charge).

To France - COLONIES &c ART.13

Provenance: Consul Klep, Thompson
FOREIGN MAIL - TO BELGIUM

The New York Postmaster's Provisional is the only U.S. Postmasters' Provisional used extensively on foreign mail. Belgium is not at all a common destination; only four covers, and one part cover, are recorded.

1845 (15 August) part cover from New York to Belgium, with 5 cents (9X1b, pos.29, with interesting inking flaw in top left hand corner) cancelled with red NEW YORK 5 PAID AUG.15 and part of Belgian accountancy marking

Illustration of a cover from the same correspondence to Monsieur Henry Vanderlinden, Anvers. (50%)

To Belgium - Rare, only five known!

Provenance: Consul Klep, Weill Brothers, "Georgian" (described as to Belgium)
FOREIGN MAIL - TO TRIESTE, AUSTRIA, SENT UNDER COVER

Trieste, now located in Italy, was part of the Austrian Empire until the end of World War I. A correspondence of covers with the New York Postmaster's Provisional to Trieste, via London, is known. Some of the covers were carried in the mail all the way to Trieste, whereas others were sent under cover from London to Trieste.

1846 (15 July) from New York to Trieste, Austria, via London, with 5 cents (9X1, pos.33) cancelled with red NEW YORK 5 PAID JUL.15 datestamp, with London arrival marking of 1.AU.1846, carried under cover from London to Trieste.

Rate: 5 cents to Boston (rate up to 300 miles) and charged "1/-" (British Packet letter rate). No charge from London to Trieste.

To Trieste, Austria, via London, carried under cover from London to Trieste

Provenance: Freelinghuysen
FOREIGN MAIL - TO TRIESTE, AUSTRIA, SENT THROUGH THE MAILS

Trieste, now located in Italy, was part of the Austrian Empire until the end of World War I. A correspondence of covers with the New York Postmaster's Provisional to Trieste, via London, is known. Some of the covers were carried in the mail all the way to Trieste, whereas others were sent under cover from London to Trieste.

1845 (30 August) from New York to Trieste, Austria, via London, with 5 cents (9X1b, pos.15) pen cancelled in blue, with red PAID and NEW YORK 30 AUG 5cts datestamp, and TRIESTE 24 SEP 1845 arrival marking, carried in the mail all the way.

To Trieste, Austria, via London, carried in the mail all the way to Trieste

Provenance: "Georgian"
On 1 July 1847 the first general United States stamps were issued, 5 cents and 10 cents. They were valid in all the States and replaced all the Postmasters' Provisionals. The rates remained unchanged, 5 cents per half ounce up to 300 miles, and 10 cents per half ounce over 300 miles. These rates and the 1847 first stamp issue were in use until the 1 July 1851.

1847. 5 cents (New York to Albany, NY (150 miles))

1847. 5 cents (New York to Knoxville, Tennessee (706 miles), with pair of 5 cents 1847)

1848. (23 March) from New York to Richmond, Virginia (335 miles), with 10 cents 1847

1847. 10 cents (New York to Richmond, Virginia (335 miles))
